6th September 2018

Dr. Kamen Vilechkov,

Project Manager,

International Science and Technology Centre (ISTC),

Astana,

Kazakhstan.

Dear Sir,

RE: THANK YOU NOTE FOR THE SUPPORT

Following the successful Conference on **Enhancing Africa's Capacity on Nuclear Safety, Security and Safeguards in SADC Countries** held at Mulungushi International Conference Centre on 29th – 30th August 2018, the AYGN Secretariat takes this opportunity to say 'THANK YOU' for your continued support.

We acknowledge that, it is through concerted efforts and thoughts on best practice that will bring us closer to achieving the project objective - to strengthen and harmonize the nuclear regulatory framework in the sub-Saharan region and Africa at large. We also believe that the conference set pace to realize nuclear safety and security in SADC countries whilst supporting their efforts to fulfil international nuclear safeguards obligations.

As a fast growing network of young professionals in Africa, we look forward to grow this working relationship with your institution even as we anticipate more collaborated events in the near future.

Most sincerely,

Gaopalelwe Santswere

President: AYGN
